

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Omar and Beatriz Cavada  
DOCKET NO.: 03-22178.001-R-1  
PARCEL NO.: 12-28-429-006-0000

The parties of record before the Property Tax Appeal Board are Omar and Beatriz Cavada, the appellants, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 47-year old, one-story masonry dwelling containing 1,128 square feet of living area with a full, unfinished basement, central air conditioning, and a two-car garage.

The appellants submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellants submitted a grid analysis detailing four suggested comparable properties. On the appellants' map, two of the comparables are located in close proximity to the subject, and the other two are located approximately 0.5 mile from the subject. The comparables are one-story masonry dwellings that are 46 to 51 years old. Two of the comparables have unfinished basements, and two have no basements. Three comparables have central air conditioning, but information on garages was not disclosed. The comparables contain 1,278 to 1,397 square feet of living area and have improvement assessments ranging from \$8.42 to \$8.45 per square foot. The subject property has an improvement assessment of \$11.67 per square foot. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	3,244
IMPR.:	\$	13,615
TOTAL:	\$	16,409

Subject only to the State multiplier as applicable.

suggested comparable properties. Three of the comparables are located in the same tax block as the subject, and one is located in the same general area as the subject. The comparable properties consist of one-story masonry dwellings that are 44 or 47 years old. Two of the comparables have full, finished basements, and two have full, unfinished basements. Each of the comparables has a two-car garage and central air conditioning. The dwellings contain 1,100 or 1,104 square feet of living area and have improvement assessments of \$11.59 to \$12.38 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellants' comparables one and four differed in location and foundation from the subject and received reduced weight in the Board's analysis. The appellants' comparables two and three were similar to the subject but the board of review's comparables were the most similar to the subject property in age, location, and physical characteristics. These comparables had improvement assessments of \$11.59 to \$12.38 per square foot and support the subject's improvement assessment of \$11.67 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject properties, the Board finds the subject's per square foot improvement assessment is supported by the most comparable property contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
